Thai Food the Thai Way

The food is eaten in a style completely different from Western food. Derived from the Thai culture of extended families living under one roof and the tradition of two or three generations sitting down to dine together.

Therefore at each meal food is prepared for the taste and needs of every generation. Spicy dishes are balanced with non-spicy, sweet and sour.

All the dishes are put on the table at once, with the exception of dessert and all are eaten together along with rice.

Since the Hotel is owned by a Thai family, our aim is to introduce authentic Thai food to you; our guests. All our dishes are cooked from scratch and we make our own curry pastes to ensure the right levels of spice to suit all palates, whilst maintaining authenticity.

Below we offer three Set Menus including spicy, sour, sweet and salty flavours. This method of cooking which provides such a balance is Thai folk wisdom, which has been passed down many generations and is now offered to you.

**Please enjoy our genuine authentic Thai food.
